4. Anyone looking for a **change in career** and the ability to **work online from home**
5. Anyone wanting to be a **part of bigger concept** that gives-back and **creates a positive impact**

WHY NEW925™ ACADEMY ?

What is the immediate future going to bring?

AI & automation are powerful tool BUT can replace many jobs in the near future. The statistics show that AI is likely to have a significant impact on the labor market.

By 2030, tasks performed by AI and humans will be split almost equally, resulting in 50% of tasks being performed by AI.

The healthcare industry will see a 20% increase in tasks performed by AI by 2023.

By 2030, AI could replace 800 million jobs worldwide.

57% of all jobs paying under \$20 per hour are at risk of being replaced by AI in the next two decades.

By 2030, job loss due to AI and automation could affect 14% of the global workforce.

Two-thirds of executives say they expect AI to result in moderate to significant changes in jobs over the next five years.

30% of jobs in Britain are at risk of being replaced by AI, with 35% of male jobs and 26% of female jobs at high risk.

AI is estimated to replace 85 million jobs by 2025, but 97 million new jobs will be created due to AI.

49% of Japan's workforce is estimated to be replaced by AI or robotic machines within 10-20 years.

WHAT IS REMOTE WORK

Why should you consider it?

The dream of remote work is being encouraged by employers and workers alike ...

82% of remote workers reported lower stress levels.

77% of remote employees say they're more productive when working from home.

47% of remote-working employees report high job satisfaction.

Full-time remote workers save an average of \$4,000 per year on commuting, work clothes, and food.

96% of remote workers recommend flexible work to others.
